MEDICAL/ DENTAL PREMIUMS INCREASE JULY 1, 2010

During annual enrollment last fall, the university announced its decision not to increase 2010 medical and dental premiums until July 1, 2010 due to the salary freeze that was in effect. The cost of approximately \$2.2 million was absorbed by the university providing a great benefit to employees. With July quickly approaching, we want to remind faculty and staff that the adjusted semi-monthly premiums will be reflected in the July 15 pay. Click below to view the new rates.

DEPENDENT ELIGIBILITY INCREASES TO AGE 26

The recently signed Patient Protection and Affordable Care Act (PPACA) requires group health plans providing dependent coverage to make that coverage available to adult children until their 26th birthday provided the child does not have access to his/her own employer coverage. The new law requires JHU to make this change effective January 1, 2011 or sooner. The university has made the decision to implement the health care reform changes sooner and extend dependent coverage through the **end of the year** in which a child turns 26.

Beginning July 1, 2010, dependents age 19-26 without access to other employer health coverage, may be eligible for the JHU medical and dental plans. Faculty and staff are being given a special 30-day enrollment opportunity from July 1 to July 31, 2010 to add these dependent child(ren) to their plans. To do so, you must complete an Affidavit of Qualified Dependent Status and mail or fax it to the Benefits Service Center as indicated on the form. Coverage and premiums due will be retroactive to July 1, 2010. Dependents may be added to your current 2010 elected plans only. If you have waived medical and dental coverage, you cannot elect to be covered under the plans at this time. You will have the opportunity to add coverage during annual enrollment in the fall for benefits effective January 1, 2011. Look for more information to come in future announcements and on the Benefits News Feed on our Web site.
